

# How to Answer Comprehension Questions

# CHAPTER 1, QUESTION 4:

- Define “*Juggernaut*.” Why does Enfield compare Hyde’s actions to a Juggernaut?

# OPTION 1:

## COMPLETE SENTENCES USING PQA

- The word *juggernaut*, according to Dictionary.com, means “any large, overpowering, destructive force or object,” and is used throughout the novella in reference to Hyde. The reason that Enfield compares Hyde’s action of trampling over the little girl as being “like some damned Juggernaut” (5) is because he says that “it was hellish to see” (5) and this is important because one of the other associations of juggernaut is “anything requiring blind devotion or cruel sacrifice” (Dictionary.com). Enfield is setting up the fact that there is something horrible wrong, possibly demonic, with Hyde and yet people are blind to exactly what it is.
